- Project Management
- Time Management
- Leadership
- Effective Communication
- Team work

LANGUAGES

- English (Fluent)
- Telugu (Fluent)
- Hindi (Basic)
- Tamil (Intermediate)

PROFILE

A curious problem solver & passionate full-stack developer, currently in my 1st year, 2nd semester at IIIT Sri City. I love turning ideas into real-world applications and have built IndAI Trip, a feature-rich travel platform. Skilled in React.js, Node.js, and databases, I'm actively exploring new technologies and always up for a coding challenge. Looking for an opportunity to apply my skills in a real-world setting.

PROJECT WORKS

IndAI Trip

2025-FEBRUARY

AI powered Geo Guide Agent

- Developed & implemented a full-stack AI-powered Geo Guide Agent using React.js, Node.js, and MongoDB.
- Integrated APIs to fetch real-time geolocation data & provide personalized travel recommendations.
- Designed an interactive UI for seamless user experience & efficient navigation.

IndAI Crime

2025-March(In progress)

Crime reporting Website

- Developing a real-time crime reporting system using React.js, Node.js, and MongoDB.
- Implementing authentication & security measures to protect user data & reports.
- Integrating a location-based API to allow users to report crimes with accurate geotagging.

Platform for content collaborators

2025-March(In Progress)

Content collaboration hub

- Developing a collaborative content-sharing platform using React.js, Node.js, and MongoDB.
- Implemented real-time collaboration features using WebSockets.
- Integrated role-based access control (RBAC) to manage permissions for contributors.
